

See Through the Eyes of Autism

Wednesday, April 12 at 1:00 pm - 5:00 pm

Come and participate in a variety of activities that allow you to experience what it's like to have autism. Join in the excitement as you uncover the special abilities and talents that many autistic children have!

Today we will be facilitating the following autism friendly activities for our guests:

Sensational Story Time 1:30pm

In My Mind: The World through the Eyes of Autism

In my mind, I see many colors, bright like a rainbow, shooting about like comets in a night sky. Take a closer look what do you see? In My Mind, by Adonya Wong, explores the inner world of an autistic child, the world that no one else can see. From exciting adventures to silly games and conversations with friends, look closely and see how a child with autism sees the world and how the world sees him.

Autism Spectrum Rotation Activities 1-5pm

Join us in our Marquee Theatre/Traveling exhibit space as our partners from the Center for Autism & Neurodevelopmental Disorders share some special activities with our guests that highlight the strengths and special abilities some of the children on the spectrum possess.

Play Partner: Center for Autism & Neurodevelopmental Disorders

RSVP: Not required

Fee: Included with museum admission

Children on the spectrum will receive FREE admission between the hours of 1 & 5pm today

CHILDREN'S MUSEUM

Grown-up Tip: Autism, or autism spectrum disorder, refers to a range of conditions characterized by challenges with social skills, repetitive behaviors, speech and nonverbal communication, as well as by unique strengths and differences. The term "spectrum" reflects the wide variation in challenges and strengths possessed by each person with autism.
