# SENSORY-FRIENDLY

## Means Arts Access for All

To give everyone in our community the opportunity to experience the joy of attending a live performance, Segerstrom Center presents sensory-friendly performances as part of our Family Series.

### **What Sensory Friendly means:**

- Reduction of sound levels, particularly loud or startling sounds.
- Reduction of overwhelming stage lighting.
- Low ambient lighting in the theater throughout the performance so patrons are able to see should they need to move around or exit the theater.
- Patrons are free to talk and move around the theater during the show.
- Preparatory materials called Previsit Guides will be provided to patrons so they will know what to expect from the performance.
- Designated break spaces will be available for those who might feel overwhelmed and need a break from the performance.
