

Interested in helping your child and others with autism?

Join the PATH to Discovery: Help us find personalized healthcare

We invite you on a PATH that will grow our understanding of the causes of autism. Your family's participation in PATH will help researchers make new discoveries and that could lead to personalized healthcare and improved quality of life.

Who can participate?

- Children between the ages of 3 - 6 years who have an Autism Spectrum Disorder
- Both biological parents (required)
- Enrolled in the Autism Care Network

What can we expect?

- Blood will be collected from the child, biological mother and biological father (all three are required)
- Questionnaires collected
- Informed Consent completed
- Families will receive a \$225 for their participation upon completion

For more information or to sign up, call Mariel Baconawa at (949) 264-2524 or email mgbacona@hs.uci.edu
