& NEURODEVELOPMENTAL DISORDERS

Autism and other
Neurodevelopmental
Disorders

in African American, Biracial
and Multiracial Families!

**A Safe Space for Black,
Biracial & Multiracial
Families to Share,
Learn and Focus on
important Issues
relating to and
assisting our Children
in thriving at Home and
their Community.**

SUPPORTING EARLY CHILDHOOD

WHY DOES EVERYONE WANT TO "FIX" MY CHILD?

The Center for Autism & Neurodevelopmental Disorders is offering a presentation for parents and caregivers about *transitioning a child with developmental delays from Early Intervention services to Pre-School* and/or other Regional Center Services. Including: *Qualifying & Admission to Pre-School, The IEP Process, Self Determination, Person Centered Planning, and Advocacy.*

We will highlight the importance of these plans, laws, and documentation to help families learn what their children are entitled to.

Become Empowered!

- * Does entitlement to RCOC services end at Age 3? What comes next?
- *When I am told no, what steps can I take? Making my child's voice heard!
- * How do I Advocate? How do I find additional resources?

Nellie Valentine
Facilitator

Nellie is successfully raising her 4 children, [2 adults and 2 adolescents] with diagnoses of Autism and other co-occurring conditions. She has over 24 years of experience and training.
